

OUR SERVICES

THANK YOU FOR CHOOSING THERA-PED FOOT & ANKLE CLINIC

At THERA-PED FOOT & ANKLE CLINIC, we are footwear and foot orthotics experts. We manage foot and lower limb pain and conditions using varying specialty foot care devices (such as orthotics), footwear and stockings.

As part of our ethical obligations and moral responsibilities to the referring physicians, our patients and to the pedorthic profession, we at Thera-Ped Foot & Ankle Clinic strictly adhere to the highest in professional standards. In this spirit, we have outlined below the 3 procedures that **every referred client** must go through in order for us to fulfill our responsibilities. They are:

1. PEDORTHIC ASSESSMENT - BY APPOINTMENT ONLY (First Appointment):

- Between 45 and 60 minutes – depending on the complexity of the case
- Involves a multitude of tests, analyses and measurements required to proceed with a prescribed pedorthic care
- At the end of this appointment is when we will discuss your specific treatment plan with you
- If custom foot devices, custom footwear or footwear modifications are required, we will require a prescription from a prescribing medical professional
- No treatment plan is ever implemented without your expressed permission

2. ORTHOTIC AND/OR FOOTWEAR FITTING:

- Between 20 to 60 minutes depending on the complexity of the case
- To verify the fit of the prescribed foot orthoses, footwear and/or devices
- Any required adjustments are applied so that the fit can be confirmed
- A proper fit is vitally important to successful pedorthic treatment.

3. FOLLOW-UP / CHECK-UP (AFTER FITTING IS DONE):

- Between 20 to 60 minutes depending on the complexity of the case
- Takes place 3 to 4 weeks post-fitting
- Insures responsible and successful delivery of pedorthic care
- Any necessary adjustments or revisions are performed
